If this company have gone on and expended money on this road, and have not completed it, the statute requires There are now over eight hundred that supervisors shall go on and work it as a public highway, until the company resumes work upon it and finishes it. By passing this bill we wipe out all claims against the company. If there rights are forfeited, who are to be their successors, who are to pay their debts? There can be no forfeiture ex cept by judicial action. We have no right by legislative enactment to despoil these

ereditors of their rights.

Mr. Beckel thought this bill does not accomplish the objects which the gentleman from Jefferson has in view. By passing this bill the company can expend five dollars only, and then discontinue the work, and

Mr. Patterson spoke against the passage of the bill, and would suggest that if be re-

ferred to a select committee.

Mr. Means said it astonished him to find entlemen exhibiting so much knowledge of his road, who never had said any thing beore in relation to it. The gentleman from Columbiana had formerly resided in Jefferson, had passed judgment against him when he was a candidate for Representative from that county. He (Mr. Means) would move that the bill be referred to a select committee of three.

Mr. Shellabarger said, that as the State had a large interest in this road, it could not se said that all the members might properly investigate its merits.
